THE CREDIT UNION VS. THE BANK

IS A CREDIT UNION BETTER THAN A TRADITIONAL BANK?

You may be wondering what the difference is between your local credit union and your local bank, or perhaps you're not really wondering at all and you assume they're pretty much the same. You may be surprised to find out that there are indeed some substantial differences between credit unions and banks including the way they operate and who they work for.

THE OWNERS

First and foremost, when you're looking at which institution to bank at, you should take a look at who owns the establishment. When you bank at your local bank, the institution is owned by investors and the bank works to make those investors money. When you bank at your local credit union, the institution is owned by the members of the credit union and if you're a member; the institution is owned in part, by you.

Are you having problems with your debit card not working?

There could be a simple solution to correct this problem. Make sure all of your information on file with Savannah Postal is correct and up to date. We have gone live with our debit cards so having the correct information on file is extremely important. Your address including your zip code and phone numbers **MUST** match. If they do not match, it will hinder proper usage of your card.

HAPPY BIRTHDAY TO SPCU

Savannah Postal Credit Union is a non-profit, member-owned cooperative dedicated to service. We opened our doors on July 12, 1952 and for just about 72 years this purpose has guided our Credit Union. In this day of bank mergers and consolidations, and various new back to basics slogans, the basics of Savannah Postal Credit Union remain as solid as ever. We think that is worth celebrating. Come by and join us for refreshments on Friday, July 12th.

Want to save time? Please use Suzi, our automated teller. This will save you time and can answer all of your questions.

**SUZIE'S NUMBER IS:
(912) 234-9565**

Identity theft is a form of stealing someone's identity to gain access to resources such as obtaining credit or benefits in that persons name. One simple way to protect yourself from being a victim is shredding all your important personal financial documents. This includes bank statements, credit card statements, pay stubs, old utility bills or anything with checking account information, passwords or social security numbers on them.
